Blank-first color grid · Stitch or block labels · Custom palette, cell proportions and row notes

32 columns × 32 rows · 382 marked cells · 642 unassigned cells

One cell = one stitch. Preview cell height/width = 1. Row notes appear in the row guide. Block construction is not generated.

Row 1 begins at the bottom, right to left. Alternate direction each row. Blank cells mean unassigned; unassigned cells are not instructions to skip a stitch.

Symbol	Label	Reference	Count
A	Ink	#293c3a	37
D	Sage	#83977a	98
F	Rose	#b85b68	130
H	Ochre	#c79a43	117
Empty	Unassigned	—	642

Screen colors are approximations. No material quantities by weight or length are estimated. Check physical materials and a swatch; physical craft validation is pending.

Print A4 portrait at 100%, without browser headers or footers. Chart cells are square reference cells for readability; the preview proportions do not set print scale. There are no overlapping cells between pages.

Counts are consecutive cells in working order. Use the cover key; unassigned cells need a design decision.
